“Tech Talks”

Fall 2016!

“Tech Talk” is an exploration of current and emerging technologies in a low-stress, positive environment - a “sandbox” approach to learning about new technologies.

September 20, 12-1 PM - The Dark Side Of Social Media

Lawrence Campus, L154, Dimitry

We all use social media to keep in touch with friends and family, but have you ever stopped to think about how your profiles can be used against you? Come join us as we discuss how law enforcement, stalkers, hackers, spammers and scammers use your social media profiles to their advantage and how to keep them safe and secure. **By Jason DeCosta**

October 18, 12-1 PM - Google Search and the Filter Bubble

Haverhill Campus, SC203, President’s Dining Room

Think your Google search results are ranked by relevance? Fact? Think again. Join librarian Jenny Fielding to learn how Google (and other websites like Amazon and Facebook) manipulate and customize your results (for better and for worse), the implications for our students and our research, and how we can use Google more effectively. **By Jennifer Fielding**

November 15, 12-1 PM – Creating Engaging and Interactive Content with SoftChalk

Lawrence Campus, L154, Dimitry

SoftChalk is a tool that allows you to quickly build content or transform existing materials into interactive and engaging content with minimal time and effort. Easily integrate multimedia, activities, and quizzes into your existing courses or training resources to make learning truly interactive. Add it directly into Blackboard or a website and get immediate feedback from students. **By Susan Tashjian**

Open to All NECC Employees
